

Summary of Errata published on 23 January 2025

The following errata have been incorporated and published in the below Instructions to Tenderers (ITT-W) documents.

This is due to the change in the default value for Labour On Costs in Schedule Part 2 D – *Adjustments to the Contract Sum including Delay Costs* – of the Form of Tender and Schedule (FTS1-5 inclusive).

This provides the opportunity for the contractor to tender a percentage addition for labour costs as defined by the applicable sectoral employment order made under the Industrial Relations Acts 1946-2015.

No revised publication date or version number has been issued.

1. ITT-W1 v 3.0 18-11-2024

ITT-W2 v3.0 18-11-2024

Reference	Description
Appendix 4 – Comparative Cost of Tender: Tender Evaluation	Item (i) now reads that: “If the tendered percentage addition to costs of labour is negative or blank, the percentage adjustment to the costs of labour that will be used is 35% .”.

2. ITT-W1a v2.0 18-11-2024

Reference	Description
Appendix 5 – Comparative Cost of Tender: Tender Evaluation	Item (i) now reads that: “If the tendered percentage addition to costs of labour is negative or blank, the percentage adjustment to the costs of labour that will be used is 35% .”.

END.
