

## Changes to Instructions to Tenderers (Works) – Restricted Procedure 11-08-2023

The Instructions to Tenderers for Works (ITT-W) procured using the **Restricted Procedure** are now amended to operate with the recently published Suitability Assessment Questionnaires (28/07/2023). Some minor amendments have also been made for language consistency, accessibility and formatting across the ITT-W suite.

Contracting Authorities should familiarise themselves with the amended ITT-Ws and ensure that they are issuing the most recent version of the applicable documents for any tender.

Contracting Authorities please note that there is Section 4 in ITT-W1. If there is a Design element to the tender, ITT-W1a should be used.

Please refer to the table below to note amended documents:

ITT-W Amended	ITT-W Current Version
ITT-W1 v2.4 19-07-2023	ITTW-1 v2.5 11-08-2023
ITT-W1a v1.4 19-07-2023	ITT-W1a v1.5 11-08-2023
ITT-W5 v1.3 19-07-2023	ITT-W5 v1.4 11-08-2023

END.
