- (a) the value of which is estimated to be not less than the threshold mentioned in Regulation 8; and
- (b) which is not excluded from the scope of these Regulations by any other provision of this Part.

(2) These Regulations apply to the award of works concession contracts or services concession contracts to economic operators by—

- (a) contracting authorities; or
- (b) contracting entities, provided that the works or services are intended for the pursuit of one of the activities listed in Schedule 2.

(3) These Regulations are subject to Article 346 of TFEU.

Principles of equal treatment, non-discrimination and transparency

7. (1) A contracting authority and a contracting entity shall treat economic operators equally and without discrimination and shall act in a transparent and proportionate manner.

(2) The design of the concession contract award procedure, including the estimate of the value, shall not be made with the intention of excluding it from the scope of these Regulations or of unduly favouring or disadvantaging certain economic operators or certain works, supplies or services.

(3) A contracting authority and a contracting entity shall aim to ensure the transparency of the concession contract award procedure and of the performance of the contract, while complying with Regulation 27.

Threshold and methods for calculating the estimated value of concession contracts

8. (1) These Regulations shall apply to a concession contract the value of which is equal to or greater than €5,225,000.

(2) The value of a concession contract shall be the total turnover of the concessionaire generated over the duration of the contract, net of VAT, as estimated by the contracting authority or contracting entity, in consideration for the works and services which are the object of the concession contract, and the supplies incidental to such works and services.

(3) That estimate shall be valid as at the moment at which the concession notice is sent for publication or, in cases where such notice is not provided for, at the moment at which the contracting authority and contracting entity commences the concession contract award procedure, for example by contacting economic operators in relation to the concession contract.

(4) For the purpose of paragraph (1), if the value of the concession contract at the time of the award is more than 20 % higher than its estimated value, the valid estimate shall be the value of the concession at the time of the award.

(5) The estimated value of the concession contract shall be calculated using an objective method specified in the concession documents.

(6) When calculating the estimated value of the concession contract, a contracting authority and a contracting entity shall, where applicable, take into account in particular—

- (a) the value of any form of option and any extension of the duration of the concession contract;
- (b) revenue from the payment of fees and fines by the users of the works or services other than those collected on behalf of the contracting authority or contracting entity;
- (c) payments or any other financial advantages, in any form, made by the contracting authority or contracting entity or any other public authority to the concessionaire, including compensation for compliance with a public service obligation and public investment subsidies;
- (d) the value of grants or any other financial advantages, in any form, from third parties for the performance of the concession contract;
- (e) revenue from sales of any assets which are part of the concession contract;
- (f) the value of all the supplies and services that are made available to the concessionaire by the contracting authority or contracting entity, provided that they are necessary for executing the works or providing the services;
- (g) any prizes or payments to candidates or tenderers.

(7) The choice of the method used to calculate the estimated value of a concession contract shall not be made with the intention of excluding it from the scope of these Regulations.

(8) A concession contract shall not be subdivided with the effect of preventing it from falling within the scope of these Regulations, unless justified by objective reasons.

(9) Where a proposed work or services may result in a concession contract being awarded in the form of separate lots, account shall be taken of the total estimated value of all such lots.

(10) Where the aggregate value of the lots is equal to or greater than the threshold specified in paragraph (1), these Regulations shall apply to the awarding of each lot.

(3) For concessions lasting more than 5 years, the maximum duration of the concession shall not exceed the time that a concessionaire could reasonably be expected to take to recoup the investments made in operating the works or services together with a return on invested capital taking into account the investments required to achieve the specific contractual objectives.

(4) The investments taken into account for the purposes of the calculation shall include both initial investments and investments during the life of the concession contract.

Social and other specific services

- (3) Where the different parts of a given contract are objectively separable—
- (a) in the case of contracts which have as their subject-matter elements covered by these Regulations as well as other elements, a contracting authority and a contracting entity may choose to award separate contracts for the separate parts or to award a single contract;
 - (b) where a contracting authority or a contracting entity chooses to award separate contracts for separate parts, the decision as to which legal regime applies to any one of such separate contracts shall be taken on the basis of the characteristics of the separate part concerned;
 - (c) where a contracting authority or a contracting entity chooses to award a single contract, these Regulations, unless otherwise provided in subparagraph (d) or in Regulation 20, apply to the ensuing mixed contract, irrespective of—
 - (i) the value of the parts that would otherwise fall under a different legal regime,
 - (ii) which legal regime those parts would otherwise have been subject to;
 - (d) in the case of a mixed contract containing elements of concession contracts as well as elements of public contracts covered by the Public Authority Contracts Regulations or contracts covered by the Award of Contracts by Utilities Regulations, the mixed contract shall be awarded in accordance with the Public Authority Contracts Regulations or the Award of Contracts by Utilities Regulations, respectively.
- (4) Where the different parts of a given contract are objectively not separable—
- (a) the applicable legal regime shall be determined on the basis of the main subject-matter of that contract; and
 - (b) where that contract involves both elements of a services concession contract and of a supply contract, the main subject-matter shall be determined according to which of the estimated values of the respective services or supplies is the higher.
- (5) Where part of a given contract is covered by Article 346 of TFEU or Directive 2009/81/EC, Regulation 20 shall apply instead of paragraphs (1) to (4).

Mixed procurement contracts involving defence or security aspects

20. (1) This Regulation applies in the case of mixed contracts which have as their subject matter elements of a concession contract covered by these Regulations and procurement or other elements covered by Article 346 of TFEU or Directive 2009/81/EC.

(3) Where the different parts of a given contract are objectively separable, a contracting authority or contracting entity may choose to award separate contracts for the separate parts or to award a single contract.

(4) The decision to award a single contract shall not, however, be taken for the purpose of excluding contracts from the application of these Regulations or the Directive 2009/81/EC.

(5) Where a contracting authority or a contracting entity chooses to award separate contracts for separate parts, the decision as to which legal regime applies to any one of such separate contracts shall be taken on the basis of the characteristics of the separate part concerned.

(6) Where a contracting authority or a contracting entity chooses to award a single contract, the following criteria shall apply to determine the applicable legal regime—

(a) where part of a given contract is covered by Article 346 of TFEU, or different parts are covered by Article 346 of TFEU and Directive 2009/81/EC respectively, the contract may be awarded without applying these Regulations, provided that the award of a single contract is justified by objective reasons;

(b) where part of a given contract is covered by Directive 2009/81/EC, the contract may be awarded in accordance with these Regulations or in accordance with Directive 2009/81/EC, provided that the award of a single contract is justified by objective reasons.

(4) Where a contracting entity chooses to award a separate contract, the decision as to which provisions shall apply to any one of such separate contracts shall be taken on the basis of the characteristics of the separate activity concerned.

(5) Where a contracting entity chooses to award a single contract—

(a) a contract which is intended to cover several activities shall be subject to the provisions applicable to the activity for which it is principally intended;

(b) in the case of a contract where it is objectively impossible to determine for which activity the contract is principally intended, the applicable provisions shall be determined in accordance with the following—

(i) the contract shall be awarded in accordance with the provisions of these Regulations applicable to concession contracts awarded by contracting authorities, if one of the activities for which the contract is intended is subject to the provisions of these Regulations applicable to concession contracts awarded by contracting authorities and the other is subject to the provisions of these Regulations applicable to concession contracts awarded by contracting entities,

(ii) the contract shall be awarded in accordance with the Public Authority Contracts Regulations, if one of the activities for which the contract is intended is subject to these Regulations and the other to the Public Authority Contracts Regulations,

(6) However, where one of the activities concerned is covered by Article 346 of TFEU or Directive 2009/81/EC., Regulation 22 applies instead of paragraph (5).

Contracts covering both activities listed in Schedule 2 and activities involving defence or security aspects.

22. (1) This Regulation applies in the case of contracts intended to cover several activities, one of them being listed in Schedule 2 and another being covered by Article 346 of TFEU or Directive 2009/81/EC.

(2) A contracting entity may choose to award separate contracts for the purposes of the separate activities or to award a single contract for the purposes of all the activities.

(3) The choice between awarding a single contract or awarding separate contracts shall not, however, be made with the objective of excluding the contract or contracts from the scope of these Regulations or Directive 2009/81/EC and a decision to award a single contract shall be justified by objective reasons.

(4) Where a contracting entity chooses to award separate contracts for separate parts, the decision as to which legal regime applies to any one of the separate contracts shall be taken on the basis of the characteristics of the separate activity concerned.

(5) Where a contracting entity chooses to award a single contract, the following shall apply—

(a) in the case of a contract intended to cover an activity which is covered by these Regulations and another which is covered by Article 346 of TFEU, the contracting entity may award the contract without applying these Regulations;

(2) If the relevant procedure complies with these Regulations, then nothing in these Regulations is to be construed as prejudicing the freedom of a contracting authority or contracting entity to organise the relevant procedure.

(3) The design of the concession award procedure shall respect the principles specified in Regulation 7. In particular, during the concession award procedure, the contracting authority or contracting entity shall not provide information in a discriminatory manner which may give some candidates or tenderers an advantage over others.

 - (iv) the protection of intellectual property rights and exclusive rights other than exclusive rights as defined in Regulation 2,

but only, in the case of each of clauses (ii) to (iv), where no reasonable alternative or substitute exists and the absence of competition is not the result of an artificial narrowing down of the parameters of the concession contract award.

(5) For the purposes of paragraph (4)(a)—

- (a) a tender shall be considered not to be suitable where it is irrelevant to the concession contract, being manifestly incapable, without substantial changes, of meeting the contracting authority's or contracting

entity's needs and requirements as specified in the concession documents;

- (b) an application shall be considered not to be suitable where—

- (c) the particularly sensitive nature of commercial information requiring a very high level of protection,

unrestricted and full direct access free of charge to certain concession documents cannot be offered by electronic means.

(4) In the circumstances set out in paragraph (3) a contracting authority or a contracting entity shall indicate in the notice or the invitation to submit a tender that the concession documents concerned will be transmitted by means other than electronic means and the time limit for the receipt of tenders shall be prolonged.

(5) Provided that it has been requested in good time, a contracting authority or a contracting entity or a competent department shall supply to all applicants or tenderers taking part in the concession contract award procedure additional information relating to the concession documents not later than 6 days before the deadline fixed for the receipt of tenders.

Combating corruption and preventing conflicts of interest

34. (1) A contracting authority and contracting entity shall take appropriate measures to combat fraud, favouritism and corruption and to effectively prevent, identify and remedy conflicts of interest arising in the conduct of concession contract award procedures, so as to avoid any distortion of competition and to

ensure the transparency of the award procedure and the equal treatment of all candidates and tenderers.

(2) The measures adopted in relation to conflicts of interest shall not go beyond what is strictly necessary to prevent a potential conflict of interest or eliminate a conflict of interest that has been identified.

(3) For the purposes this Regulation, “conflicts of interest” includes any situation where relevant staff members have, directly or indirectly, a financial, economic or other personal interest which might be perceived to compromise their impartiality and independence in the context of the concession contract award procedure.

(4) In paragraph (3), “relevant staff members” means staff members of the contracting authority or contracting entity who are involved in the conduct of the concession contract award procedure or may influence the outcome of that procedure.

CHAPTER 2

Procedural guarantees

Technical and functional requirements

35. (1) Technical and functional requirements shall be set out in the concession documents and shall lay down the characteristics required of the works or services that are the subject-matter of the concession contract.

(2) Those characteristics may also refer to the specific process of production or provision of the requested works or services provided that they are linked to the subject-matter of the contract and proportionate to its value and its objectives.

(3) The characteristics may, for example, include quality levels, environmental and climate performance levels, design for all requirements (including accessibility for disabled persons) and conformity assessment, performance, safety or dimensions, terminology, symbols, testing and test methods, marking and labelling, or user instructions.

(4) Unless justified by the subject-matter of the concession contract, technical and functional requirements shall not refer to a specific make or source, or a particular process which characterises the products or services provided by a specific economic operator or to trade marks, patents, types or a specific production with the effect of favouring or eliminating certain undertakings or certain products.

(5) However, such a reference is permitted, on an exceptional basis, where a sufficiently precise and intelligible description of the subject-matter of the contract is not possible, in which case the reference shall be accompanied by the words “or equivalent”.

(6) A contracting authority or contracting entity shall not reject a tender on the grounds that the works and services tendered for do not comply with the technical and functional requirements to which it has referred, once the tenderer proves in its tender, by any appropriate means, that the solutions it has proposed satisfy in an equivalent manner the technical and functional requirements.

Procedural guarantees

36. (1) Concession contracts shall be awarded on the basis of the award criteria, provided that all of the following conditions are fulfilled—

- (a) the tender complies with any minimum requirements set, where applicable, by the contracting authority or contracting entity;
- (b) the tenderer complies with the conditions for participation set out in Regulation 38(1) to (3); and
- (c) the tenderer is not excluded from participating in the concession contract award procedure in accordance with Regulation 37(1) to (9), and subject to Regulation 37(13) to (18).

(2) The contracting authority or contracting entity shall provide:

- (a) in the concession notice, a description of the concession contract and of the conditions of participation;
- (b) in the concession notice or the invitation to submit a tender, or other concession document, a description of the award criteria, and where applicable, the minimum requirements to be met.

(3) The contracting authority or contracting entity may limit the number of candidates or tenderers to an appropriate level, on condition that this is done in a transparent manner and on the basis of objective criteria.

(4) The number of candidates or tenderers invited shall be sufficient to ensure genuine competition.

(5) The contracting authority or contracting entity shall communicate the following to all participants—

- (a) the description of the envisaged organisation of the procedure and an indicative completion deadline; and
- (b) any modification to that procedure or completion deadline.

(6) To the extent that any modification referred to in paragraph (5)(b) concerns elements disclosed in the concession notice, the contracting authority or contracting entity shall advertise it to all economic operators.

(7) The contracting authority or contracting entity shall provide for appropriate recording of the stages of the procedure using the means it considers appropriate, subject to Regulation 27(1), (2) and (3).

(8) The contracting authority or contracting entity may hold negotiations with candidates and tenderers; however the subject matter of the concession contract, the award criteria and the minimum requirements shall not be changed during the course of any negotiations.

(9) In this Regulation—

“award criteria” means the award criteria set out by the contracting authority or contracting entity in accordance with Regulation 41;

“minimum requirements” mean the conditions and characteristics (in particular any technical, physical, functional and legal conditions and characteristics) that any tender must meet or possess.

Exclusion grounds

37. (1) Subject to paragraphs (6), (15) and (20), a contracting authority or a contracting entity referred to in Regulation 5(1)(a) shall exclude an economic operator from participation in a concession contract award procedure where it has established that the economic operator concerned has been convicted of one or more of the following offences:

- (a) participation in a criminal organisation, within the meaning of Article 2 of Council Framework Decision 2008/841/JHA of 24 October 2008 on the fight against organised crime;
- (b) corruption, which, in this Regulation, means corruption within the meaning of the following:
 - (i) Regulation 2;
 - (ii) Article 2(1) of Council Framework Decision 2003/568/JHA of 22 July 2003 on combating corruption in the private sector;
 - (iii) the law of the State, where the contracting authority or the contracting entity or the economic operator concerned is established in the State;
 - (iv) the law of the Member State, other than the State, in which the contracting authority or the contracting entity or the economic operator concerned is established;
- (c) fraud within the meaning of Article 1 of the Convention on the protection of the European Communities’ financial interests drawn up under the Council Act of 26 July 1995;
- (d) terrorist offences or offences linked to terrorist activities, within the meaning of Articles 1 and 3 respectively of Council Framework Decision 2002/475/JHA of 13 June 2002 on combating terrorism or inciting or aiding or abetting or attempting to commit an offence referred to in Article 4 of that Council Framework Decision;

- (e) money laundering or terrorist financing, within the meaning of Article 1 of Directive 2005/60/EC of the European Parliament and of the Council of 26 October 2005 on the prevention of the use of the financial system for the purpose of money laundering and terrorist financing;
- (f) child labour and other forms of trafficking in human beings, within the meaning of Article 2 of Directive 2011/36/EU of the European Parliament and of the Council of 5 April 2011 on preventing and combating trafficking in human beings and protecting its victims and replacing Council Framework Decision 2002/629/JHA.

(2) The obligation of a contracting authority or a contracting entity referred to in Regulation 5(1)(a) to exclude an economic operator under paragraph (1) also applies (but subject to paragraphs (6), (15) and (20)) where the person convicted is a member of the administrative, management or supervisory body of that economic operator or has powers of representation, decision or control in the economic operator.

(3) Subject to paragraphs (5) to (7), an economic operator shall be excluded by a contracting authority or a contracting entity referred to in Regulation 5(1)(a) from participation in a concession contract award procedure where—

- (a) the contracting authority or contracting entity is aware that the economic operator is in breach of its obligations relating to the payment of taxes or social security contributions, and
- (b) the breach referred to in subparagraph (a) has been established by a judicial or administrative decision having final and binding effect in accordance with the law of the country in which the operator is established or the Member State of the contracting authority or contracting entity.

(4) Subject to paragraph (5), a contracting authority or a contracting entity referred to in Regulation 5(1)(a) may exclude an economic operator from participation in a concession contract award procedure where the contracting authority or contracting entity can demonstrate, by any appropriate means, that the economic operator is in breach of its obligations relating to the payment of taxes or social security contributions.

(5) Paragraphs (3) and (4) shall not apply when the economic operator has fulfilled its obligations by paying, or entering into a binding arrangement with a view to paying, the taxes or social security contributions due, including, where applicable, any interest accrued or fines.

(6) A contracting authority or a contracting entity referred to in Regulation 5(1)(a) shall not be obliged to exclude an economic operator under this Regulation where, on an exceptional basis, there are overriding reasons relating to the public interest such as public health or protection of the environment.

(7) A contracting authority or a contracting entity referred to in Regulation 5(1)(a) shall not be obliged to exclude an economic operator under paragraph (3) where such an exclusion would be disproportionate, including where—

- (a) only minor amounts of taxes or social security contributions referred to in paragraph (3)(a) are unpaid, or
- (b) the economic operator was informed of the exact amount due following its breach of its obligations relating to the payment of taxes or social security contributions referred to in paragraph (3)(a) at such time that it did not have the possibility of taking measures as provided for in paragraph (5) before the expiration of the deadline for requesting participation or, in open procedures, the deadline for submitting its tender.

(8) Subject to paragraphs (15) and (21), a contracting authority or a contracting entity referred to in Regulation 5(1)(a) may exclude from participation in a concession contract award procedure any economic operator in one or more of the following situations:

- (a) where the contracting authority or contracting entity can demonstrate by any appropriate means a violation of applicable obligations referred to in Regulation 29(4);
- (b) where the economic operator is bankrupt or is the subject of insolvency or winding-up proceedings, where its assets are being administered by a liquidator or by the court, where it is in an arrangement with creditors, where its business activities are suspended or it is in any analogous situation arising from a similar procedure under the law of the State;
- (c) where the contracting authority or contracting entity can demonstrate, by any appropriate means, that the economic operator is guilty of grave professional misconduct, which renders its integrity questionable;
- (d) where a conflict of interest within the meaning of Regulation 34 cannot be effectively remedied by other, less intrusive, measures;
- (e) where the contracting authority or contracting entity has sufficiently plausible indications to conclude that the economic operator has entered into agreements with other economic operators aimed at distorting competition;
- (f) where the economic operator has shown significant or persistent deficiencies in the performance of a prior public contract which led to early termination of that prior contract, damages or other comparable sanctions;
- (g) where the economic operator has been guilty of serious misrepresentation in supplying the information required for the verification of the

absence of grounds for exclusion or the fulfilment of the selection criteria, has withheld such information or is not able to submit supporting documents required under these Regulations;

- (h) where the economic operator has undertaken to unduly influence the decision-making process of the contracting authority or contracting entity, or obtain confidential information that may confer upon it undue advantages in the concession award procedure or where the economic operator has negligently provided misleading information that may have a material influence on decisions concerning exclusion, selection or award;
- (i) in the case of a concession contract in the fields of defence and security as referred to in Directive 2009/81/EC, where the economic operator has been found, on the basis of any means of evidence, including protected data sources, not to possess the reliability necessary to exclude risks to the security of the State.

(9) Notwithstanding subparagraph (b) of paragraph (8), a contracting authority or a contracting entity may decide not to exclude an economic operator that is in any of the situations referred to in that subparagraph where it has established that the economic operator will be able to perform the contract taking into account the national rules and measures of the Member State of establishment of the economic operator or the law of the State, as appropriate, on the continuation of business in those situations.

(10) A contracting authority or a contracting entity referred to in Regulation 5(1)(a) shall, at any time during the concession contract award procedure, exclude an economic operator where it becomes aware that the economic operator is, in view of acts committed or omitted either before or during the procedure, in one of the situations referred to in paragraphs (1) to (3).

(11) A contracting authority or a contracting entity referred to in Regulation 5(1)(a) may, at any time during the concession contract award procedure, exclude an economic operator where it becomes aware that that economic operator is, in view of acts committed or omitted either before or during the procedure, in one of the situations referred to in paragraph (4) or (8).

(12) Subject to paragraphs (15) and (22), a contracting entity other than one referred to in Regulation 5(1)(a) may exclude an economic operator from participation in a concession contract award procedure where it is aware that that economic operator is in one of the situations referred to in paragraph (1), (4) or (8)

(13) In addition to its operating in the case there mentioned, paragraph (12) shall, subject to paragraph (15), operate to enable a contracting entity other than one referred to in Regulation 5(1)(a) to exclude, at any time during the concession contract award procedure, an economic operator where it becomes aware that that economic operator is, in view of acts committed or omitted

either before or during the procedure, in one of the situations referred to in paragraph (1), (4) or (8).

(14) An economic operator that is in one of the situations referred to in paragraph (1), (2) or (8) may provide evidence to the effect that measures taken by the economic operator concerned are sufficient to demonstrate its reliability despite the existence of a relevant ground for exclusion.

(15) Where the evidence provided under paragraph (14) is considered sufficient the economic operator concerned shall not be excluded from the concession contract award procedure.

(16) For the purposes of paragraphs (14) and (15) the economic operator shall show that it has—

- (a) paid or undertaken to pay compensation in respect of any damage caused by the criminal offence or misconduct concerned,
- (b) clarified the facts and circumstances in a comprehensive manner by actively collaborating with the investigating authorities, and
- (c) taken concrete technical, organisational and personnel measures that are appropriate to prevent further criminal offences or misconduct.

(17) The contracting authority or contracting entity shall, when evaluating the measures shown to be taken by the economic operator under paragraph (16), take into account the gravity and particular circumstances of the criminal offence or misconduct concerned.

(18) Where the contracting authority or contracting entity considers that the measures shown to be taken by the economic operator under paragraph (16) are insufficient, it shall give the economic operator a statement of the reasons for that decision.

(19) An economic operator that is excluded by final judgment from participating in procurement or concession contract award procedures shall not be entitled to make use of the possibility provided for in paragraphs (14) to (18) during the period of exclusion resulting from that judgement in the Member State where the judgement is effective.

- (20) (a) The following applies in relation to the construction of paragraphs (1) and (2) where the case is not a case in which the period of exclusion has been set by final judgment.
- (b) Paragraphs (1) and (2) shall be construed so that the requirement under either of those paragraphs that the economic operator be excluded, in the manner there mentioned, shall cease to apply on the expiration of the period of 5 years from the date of conviction of the economic operator or person, as the case may be, for the offence concerned referred to in the relevant paragraph.

(21) (a) The following applies in relation to the construction of paragraph (8) where the case is not a case in which the period of exclusion has been set by final judgment.

(b) Paragraph (8) shall be construed so that the power under that paragraph to exclude an economic operator, in the manner there mentioned, shall not be exercisable where the economic operator concerned establishes that 3 or more years have elapsed since the date that the economic operator was in the relevant situation referred to in that paragraph.

(22) (a) The following applies in relation to the construction of paragraph (12) where the case is not a case in which the period of exclusion has been set by final judgment.

(b) Paragraph (12) shall be construed so that—

(i) the power under that paragraph to exclude an economic operator, in the manner there mentioned as it relates to paragraph (1), shall cease to be exercisable on the expiration of the period of 5 years from the date of conviction of the economic operator for the offence concerned referred to in paragraph (1),

(ii) the power under that paragraph to exclude an economic operator, in the manner there mentioned as it relates to paragraph (8), shall not be exercisable where the economic operator concerned establishes that 3 or more years have elapsed since the date that the economic operator was in the relevant situation referred to in paragraph (8).

(23) The reference in paragraph (19) to the requirement under paragraph (1) or (2) includes a reference to the requirement under either such paragraph as it operates by virtue of paragraph (10).

(24) The reference in paragraph (20) to the power under paragraph (8) includes a reference to the power under paragraph (8) as that paragraph operates by virtue of paragraph (11).

(25) The reference in paragraph (22) to a particular power under paragraph (12) includes a reference to the particular power under paragraph (12) as that paragraph operates by virtue of paragraph (13).

Selection of and qualitative assessment of candidates

38. (1) A contracting authority or a contracting entity shall verify the conditions for participation in a concession contract award procedure relating to the professional and technical ability and the financial and economic standing of candidates or tenderers on the basis of self-declarations or references submitted as proof in accordance with the requirements specified in the concession notice.

(2) Those requirements shall be non-discriminatory and proportionate to the subject-matter of the concession contract.

(3) The conditions for participation shall be related and proportionate to the need to ensure the ability of the concessionaire to perform the concession contract, taking into account the subject matter of the concession contract and the purpose of ensuring genuine competition.

(4) For the purpose of meeting the conditions for participation set out in paragraphs (1) to (3), an economic operator may, where appropriate and for a particular concession contract, rely on the capacities of other entities, regardless of the legal nature of its links with them, subject to the following provisions of this Regulation.

(5) Where an economic operator wants to rely on the capacities of other entities, it shall prove to the contracting authority or contracting entity that it will have at its disposal, throughout the period of the concession contract, the necessary resources, for example, by producing a commitment by those entities to that effect.

(6) With regard to financial standing, the contracting authority or contracting entity may require that the economic operator and those entities on which it relies are jointly liable for the execution of the contract.

(7) A group of economic operators within the meaning of Regulation 25 may rely on the capacities of participants in the group or of other entities, and paragraphs (4) to (6) apply in relation to such a group in the same way that they apply in relation to an economic operator.

Time limits for receipt of applications and tenders for the concession contract

39. (1) When fixing the time limits for the receipt of applications or of tenders, a contracting authority or contracting entity shall take account, in particular, of the complexity of the concession contract and the time required for drawing up tenders or applications, without prejudice to the minimum time limits set out in this Regulation.

(2) Where applications or tenders can be made only after a visit to the site or after on-the-spot inspection of the documents supporting the concession documents, the time limits for the receipt of applications for the concession contract or for the receipt of tenders shall be fixed so that all economic operators concerned may be aware of all the information needed to produce applications or tenders and in any event shall be longer than the minimum time limits set out in paragraphs (3) and (4).

(3) The minimum time limit for the receipt of applications (whether or not including tenders for the concession contract) shall be 30 days from the date on which the concession notice was sent for publication in accordance with Regulation 30.

(4) Where the procedure takes place in successive stages the minimum time limit for the receipt of initial tenders shall be 22 days from the date on which the invitation to tender is sent.

(5) The time limits for receipt of tenders may be reduced by 5 days where the contracting authority or contracting entity allows the submission of tenders by electronic means in accordance with Regulation 28.

Provision of information to candidates and tenderers

40. (1) The contracting authority or contracting entity shall as soon as possible inform each candidate and tenderer of decisions reached concerning the award of a concession contract, including—

- (a) the name of the successful tenderer; and
- (b) the grounds for any decision—
 - (i) to reject its application or tender,
 - (ii) not to award a contract for which there has been publication of a concession notice, or
 - (iii) to recommence the procedure.

(2) On request from the party concerned, the contracting authority or contracting entity shall as quickly as possible, and in any event within 15 days from receipt of a request in writing, inform any tenderers that have submitted an admissible tender of the characteristics and relative advantages of the tender selected.

(3) The contracting authority or contracting entity may decide to withhold certain information referred to in this Regulation where the release of such information—

- (a) would impede law enforcement or would otherwise be contrary to the public interest;
- (b) would prejudice the legitimate commercial interests of a particular economic operator, whether public or private; or
- (c) might prejudice fair competition between economic operators.

Award criteria

41. (1) A concession contract shall be awarded on the basis of objective criteria which comply with the principles set out in Regulation 7 and which ensure that tenders are assessed in conditions of effective competition so as to identify an overall economic advantage for the contracting authority or contracting entity.

(2) The award criteria—

- (a) shall be linked to the subject-matter of the concession contract;

- (b) shall not confer an unrestricted freedom of choice on the contracting authority or contracting entity; and
 - (c) may include environmental, social, or innovation-related criteria.
- (3) The award criteria shall be accompanied by requirements which allow the information provided by the tenderers to be effectively verified.
- (4) The contracting authority or contracting entity shall verify whether tenders properly meet the award criteria.
- (5) The contracting authority or contracting entity shall list the award criteria in descending order of importance.
- (6) Notwithstanding paragraph (1), where the contracting authority or contracting entity receives a tender which proposes an innovative solution with an exceptional level of functional performance which could not have been foreseen by a diligent contracting authority or contracting entity, the contracting authority or contracting entity may, exceptionally, modify the ranking order of the award criteria to take into account that innovative solution.
- (7) Where paragraph (6) applies the contracting authority or contracting entity shall—
- (a) inform all tenderers about the modification of the order of importance and issue a new invitation to submit tenders in compliance with the minimum time limit referred to in Regulation 39(4) for the receipt of tenders;
 - (b) where the award criteria have been published in or at the same time as the concession notice, publish a new concession notice in compliance with the minimum time limit referred to in Regulation 39(3) for the receipt of applications.
- (8) The contracting authority or contracting entity shall ensure that a modification of the ranking order referred to in paragraph (6) does not result in discrimination.

PART 4

RULES ON THE PERFORMANCE OF CONCESSION CONTRACTS

Subcontracting

42. (1) In the concession documents, the contracting authority or contracting entity may ask the tenderer to indicate in its tender any share of the concession contract that it may intend to subcontract to third parties and any proposed subcontractors.

(2) Paragraph (1) is without prejudice to the question of the concessionaire's liability.

(3) In the case of a works concession contract and in respect of services to be provided at a facility under the oversight of the contracting authority or contracting entity, after the award of the concession contract and at the latest when the performance of the concession contract commences, the contracting authority or contracting entity shall require the concessionaire to notify to the contracting authority or contracting entity the name, contact details and legal representatives of its subcontractors involved in such works or services, in so far as known at the time.

(4) The contracting authority or contracting entity shall require the concessionaire to notify it of—

- (a) any changes to the information notified under paragraph (3) during the course of the concession contract; and
- (b) the name, contact details and legal representatives of any new subcontractors which it subsequently involves in such works or services.

(5) Paragraphs (3) and (4) do not apply to suppliers.

(6) Where the contracting authority or contracting entity determines that such compliance in the following cases or by the following persons is required (and makes it a requirement accordingly), the obligations provided for in paragraphs (3) and (4) shall also fall to be complied with in such cases or by such persons as it determines, including, but not limited to—

- (a) cases of services concession contracts (other than those concerning services to be provided at the facilities under the oversight of the contracting authority or contracting entity) or suppliers involved in works concession contracts or services concession contracts;
- (b) subcontractors of the concessionaire's subcontractors or subcontractors further down the subcontracting chain.

(7) To avoid contraventions of the obligations referred to in Regulation 29(4), a contracting authority or a contracting entity may take appropriate measures by, amongst other things, verifying whether there are grounds for exclusion of subcontractors under Regulation 37.

(8) In such cases, the contracting authority or contracting entity—

- (a) shall require that the economic operator replace a subcontractor in respect of which the verification has shown that there are compulsory grounds for exclusion; and
- (b) may require that the economic operator replace a subcontractor in respect of which the verification has shown that there are non-compulsory grounds for exclusion.

Modification of concession contracts during their term

43. (1) Concession contracts may be modified without a new concession contract award procedure in accordance with these Regulations in any of the following cases—

- (a) where the modifications, irrespective of their monetary value, have been provided for in the initial concession documents in clear, precise and unequivocal review clauses, which may include value revision clauses or options, provided that such clauses—
 - (i) shall state the scope and nature of possible modifications or options as well as the conditions under which they may be used, and
 - (ii) shall not provide for modifications or options that would alter the overall nature of the concession contract;
- (b) for additional works or services by the original concessionaire that have become necessary and were not included in the initial concession contract where a change of concessionaire—
 - (i) cannot be made for economic or technical reasons such as requirements of interchangeability or interoperability with existing equipment, services or installations procured under the initial concession contract, and
 - (ii) would cause significant inconvenience or substantial duplication of costs for the contracting authority or contracting entity,and this subparagraph is subject to, and is supplemented by, paragraph (2);
- (c) where all of the following conditions are fulfilled—
 - (i) the need for modification has been brought about by circumstances which a diligent contracting authority or contracting entity could not have foreseen,
 - (ii) the modification does not alter the overall nature of the concession contract,
 - (iii) in the case of a concession contract awarded by a contracting authority for the purposes of pursuing an activity other than an activity referred to in Schedule 2, any increase in value does not exceed 50 % of the value of the original concession contract.

and this subparagraph is subject to, and is supplemented by, paragraph (3);

(d) where a new concessionaire replaces the one to which the contracting authority or the contracting entity had initially awarded the concession contract as a consequence of—

- (i) an unequivocal review clause or option in conformity with paragraph (1)(a), or
- (ii) universal or partial succession into the position of the initial concessionaire, following corporate restructuring, including takeover, merger, acquisition or insolvency, of another economic operator that fulfils the criteria for qualitative selection initially established, provided that this does not entail other substantial modifications to the contract and is not aimed at circumventing the application of these Regulations;

(e) where the modifications, irrespective of their value, are not substantial within the meaning of paragraph (8).

(2) For the purposes of paragraph (1)(b)—

- (a) in the case of a concession contract awarded by a contracting authority for the purposes of pursuing an activity other than an activity referred to in Schedule 2, any increase in value shall not exceed 50% of the value of the original concession contract,
- (b) where several successive modifications are made, that limitation shall apply to the value of each modification,
- (c) such consecutive modifications shall not be aimed at circumventing these Regulations.

(3) For the purposes of paragraph (1)(c)—

- (a) where several successive modifications are made, that limitation shall apply to the value of each modification;
- (b) such consecutive modifications shall not be aimed at circumventing these Regulations.

(4) A contracting authority or contracting entity which has modified a contract in either of the cases described in paragraph (1)(b) and (c) shall publish a notice to that effect in the Official Journal. Such a notice shall contain the information set out in Annex XI to the Concessions Directive and shall be published in accordance with Regulation 32.

(5) Furthermore, and without any need to verify whether the conditions specified in paragraph (8)(a) to (d) are met, contracts may equally be modified without a new procurement procedure in accordance with these Regulations being necessary where the value of the modification is below each of the following values—

- (a) the threshold mentioned in Regulation 8; and

(b) 10% of the value of the initial concession contract.

(6) However, for the purposes of paragraph (5) the modification cannot alter the nature of the concession contract. Where several successive modifications are made, the value shall be assessed on the basis of the net cumulative value of the successive modifications.

(7) For the purpose of the calculation of the value mentioned in paragraphs (1)(c), (2) and (5)(b), the updated value shall be the reference value when the concession contract includes an indexation clause. If the concession contract does not contain an indexation clause, the updated value shall be calculated taking into account the average inflation in the State.

(8) A modification of a concession contract during its term shall be considered substantial for the purposes of paragraph (1)(e), where the modification renders the concession contract materially different in character from the one initially concluded. In any event, without prejudice to paragraphs (1) to (6), a modification shall be considered to be substantial where one or more of the following conditions are met:

- (a) the modification introduces conditions which, had they been part of the initial concession contract award procedure, would have—
 - (i) allowed for the admission of other applicants than those originally selected,
 - (ii) allowed for the acceptance of a tender other than that originally accepted, or
 - (iii) attracted additional participants in the concession contract award procedure;
- (b) the modification changes the economic balance of the concession contract in favour of the concessionaire in a manner which was not provided for in the initial concession contract;
- (c) the modification extends the scope of the concession contract considerably;
- (d) a new concessionaire replaces the one to which the contracting authority or the contracting entity had initially awarded the concession contract in cases other than those provided for in paragraph (1)(d).

(9) A new concession contract award procedure in accordance with these Regulations shall be required for modifications of the provisions of a concession contract during its term other than those provided for in paragraphs (1) to (6).

Termination of concession contracts

44. The contracting authority or contracting entity shall ensure that every concession contract which it awards contains provisions enabling it to terminate

the concession contract where one or more of the following conditions are fulfilled—

- (a) a modification of the concession contract has taken place, which would have required a new concession contract award procedure in accordance with Regulation 43;
- (b) the concessionaire, at the time of the concession contract award, falls within one of the cases referred to in Regulation 37(1), including as a result of the application of Regulation 37(2), or 37(8) and should therefore have been excluded from the concession contract award procedure;
- (c) the Court of Justice of the European Union finds, in a procedure pursuant to Article 258 of TFEU, that the State has failed to fulfil its obligations under the Treaties by virtue of the fact that the contracting authority or contracting entity has awarded the concession contract without complying with its obligations under the Treaties and the Concessions Directive.

Reporting to Minister

45. A contracting authority or a contracting entity shall, on request being made of it by the Minister therefor, send to the Minister a report containing such information as is specified in the request in respect of—

- (a) any concession contract within the scope of these Regulations; or
- (b) the procedure for the award of any such concession contract.

Transitional provision

46. (1) In this Regulation—

“public works concession contract” has the same meaning as it has in the Regulations of 2006;

“Regulations of 2006” means the European Communities (Award of Public Authorities’ Contracts) Regulations 2006 (S.I. No. 392 of 2006).

(2) These Regulations do not apply to a concession contract award procedure commenced by a contracting authority or a contracting entity before 18 April 2016.

(3) Without prejudice to the generality of paragraph (2), these Regulations do not apply to a public works concession contract to which Chapter 1 of Part 9 of the Regulations of 2006 applies if a contracting authority (within the meaning of those Regulations), before 18 April 2016, published a notice of its proposal to award such a contract in accordance with Regulation 71 of those Regulations.
